

A new hint to transportation - Analysis of the NYC bike share system

Dashboard1

Dashboard2

A NEW HINT TO TRANSPORTATION-ANALYSIS OF THE NYC BIKE
SHARE SYSTEM

The screenshot shows a Tableau dashboard with a bar chart titled "Trip Duration by User Type colored by User Type". The chart displays trip duration for three user types: Driver, Passenger, and Partner. The y-axis represents trip duration in minutes, ranging from 0 to 100. The x-axis shows three categories: Driver, Passenger, and Partner. The bars are colored blue for Driver, orange for Passenger, and green for Partner. The Partner bar is the tallest, reaching approximately 95 minutes. The Driver bar is around 45 minutes, and the Passenger bar is around 25 minutes.
